## MC-3000AP

**DESCRIPTION:** The material is an anti adhesion coating and used for reducing man-hours when cleaning concrete-mixing and concrete-distributing equipment.

### **ADVANTAGES:**

- Reduces concrete sticking to a surface
- Reduces man-hours for equipment everyday service
- Reduces wearing of equipment

### **TEMPERATURE RANGE:**

- Application temperature + 5 °C + 60 °C
- Storage temperature - 40 °C до + 40 °C

**PACKAGE:** Steel barrels 200l

### **Technical Sheet**

**Appearance:** low-viscosity transparent oil fluid

**Color:** yellow

**Thickness:** 0,75 – 0,85

**Viscosity (20°C):** 10,0 -13,0 g/sm<sup>3</sup>

**Consumption rate:** 0,07-0,08 kg/m<sup>2</sup>
